**CONFERENCE THEME**  
**NATIONAL LEVEL CONFERENCE ON LITERARY PERSPECTIVE IN THE ARENA OF MODERN EDUCATION**

English Literature ever since Geoffrey Chaucer to Modern Writings has witnessed varied perspectives. It tried to tap all the walks of lives and civilizations. Dramatic prose and poetic narrative tried to shape a great literary work. Connie Willis is credited to say literature “That's what literature is. It's the people who went before us, tapping out messages from the past, from beyond the grave, trying to tell us about life and death! Listen to them!”, in this scenario the National Conference tries to retrace the varied perspectives by the scholarly teaching and learning with respect to the modern education. The National Conference aids to fill in the gap between the approaches and deliverables in English literature. Literature engrosses interest in reading books and appreciation of art. Modern literary education is driving away from the traditional bunch of large size books to screenplays, song lyrics, and online communication through blogs etc. Literary artistic merits ever shade its fragrance in this view scholarly papers are welcomed from research scholars, teachers and students.
