

ECO BAG DISTRIBUTION(KONAIPALLE)

Date:5 October 2026

As Badruka Group of Institutions has adopted Konaipalle Village, the Rotaract Club of BBCIT took a wonderful initiative towards creating a cleaner and greener community by distributing eco-friendly bags and spreading awareness about the need to avoid plastic and its harmful effects on our environment.

But we believe that change begins within ourselves.

To bring this thought to life, we created a handmade eco-friendly awareness banner, an idea conceptualized by our President and brought to reality with the creativity, effort, and teamwork of our fellow Rotaractors.

This initiative was proudly supported by our Parent Club, Rotary Club Of Hyderabad Mega City, whose encouragement helped us turn this vision into action.

With collective effort, awareness, and a commitment to sustainable living, we successfully conducted the Eco Bag Distribution at Konaipalle. One initiative. One community. One step towards a plastic-free future.

We can proudly say: Konaipalle takes a step towards being plastic-free! Small actions create lasting impact. Together, we choose a greener tomorrow.

THANK YOU
